CAMEROON WORKSHOPS A GREAT SUCCESS

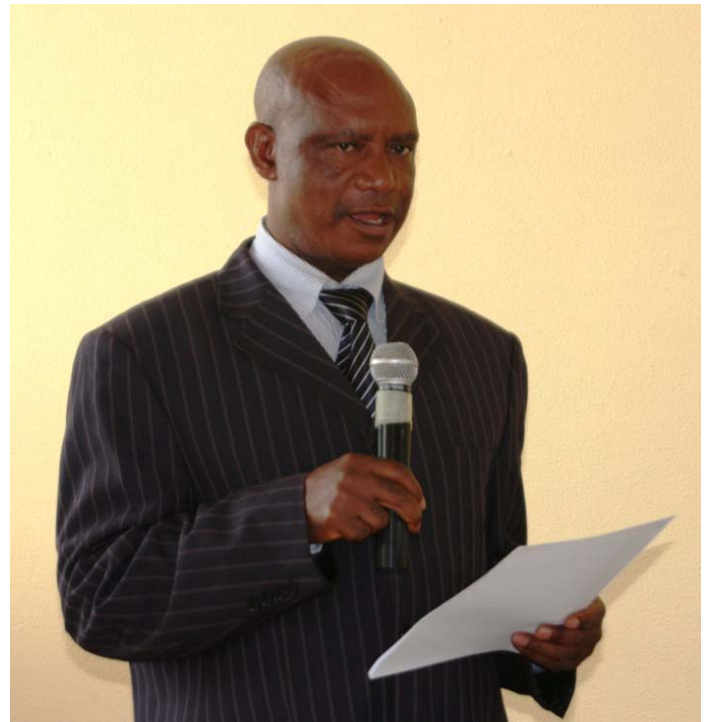

The CNF, in conjunction with the Cameroon Nurses Association, held two very successful workshops in the 4 Safety series in Yaounde 5-6 July and Bamenda 8-9 July 2010. Forty three nurses attended the Yaounde workshop and 48 nurses attended the Bamenda workshop. Delegates considered key factors essential to ensure patient safety; discussed strategies to make their workplaces safer; debated issues around whether nursing in Cameroon was a safe profession; and reflected on their own capacity to be a safe nurse.

Participants at the Yaounde workshop

WHO RESOURCE ON HEALTH WORKFORCE

Increasing access to health workers in remote and rural areas through improved retention, WHO July 2010

The WHO has just released guidelines designed to assist countries to increase the retention of health workers in remote and rural areas. The guidelines contain specific recommendations covering: education; regulation; financial incentives; and personal and professional support. National nursing and midwifery associations are encouraged to obtain a copy of the guidelines and set up a meeting with their governments to discussing the development of strategies for implementation of the recommendations. A copy of the guidelines is available from:

NEW UN AGENCY TO PROMOTE WOMEN'S EMPOWERMENT

In an historic move, the United National General Assembly on 2 July 2010 voted unanimously to create a new single entity to promote the empowerment of women: *the UN Entity for Gender Equality and the Empowerment of Women*, to be known as **UN Women**. The new entity merges four UN offices focusing on gender equality: the UN Development Fund for Women (UNIFEM); the Division for the Advancement of Women (DAW); the Office of the Special Adviser on Gender Issues; and the UN International Research and Training Institute for the Advancement of Women (UN-INSTRAW). **UN Women** is the result of years of advocacy by the global women's movement. The new UN entity will have an annual budget of at least US 500 million and will become operational in January 2010. For further information go to:
